Anatolian White Treasure

Marduy started production of wheat flour on an area of 25.000 m² in Mardin Organized Industrial Zone in 2010. Daily wheat flour capacity 250 freeze. In addition to our 50 kg flour mills, we sell 30 kg bran flakes.

At the time of harvest, the crops of land buyers buys wheat in the amount of farmers and esnaftans. In addition, imports of wheat from various regions of the world such as Russia, Kazakhstan, Brazil and the USA are being carried out.

It is exporting nearly all of its production to Iraq and there are many females in this country. Wheat and wheat flour are analyzed in accordance with international standards by experienced engineers in our laboratory equipped with the latest technology.
